

Identity Standards

Execution Specifications • Version 1.0

These Standards describe execution. The Identity Charter describes why.

These Standards describe the execution of LifeBook’s visual identity. They specify measurements, colour values, and application rules. They should be read alongside the LifeBook Identity Charter, which provides the philosophical context for each decision described here.

The Charter should be consulted whenever these Standards are unclear or when a new situation arises that the Standards have not yet addressed.

These Standards may evolve. The Charter they serve should not.

01 THE STEWARD’S MARK — SPECIFICATIONS

The Steward’s Mark is a single filled circle. It is used at three sizes depending on context. The Standard size is the default.

DESIGNATION	RADIUS	CONTEXT
Accent	r = 9px	Inline, footnote, correspondence signature
Standard	r = 16px	Letterhead, document headers — recommended for most uses
Title	r = 24px	Cover pages, large-format, display use

02 THE STEWARDSHIP MARK — SPECIFICATIONS

The Stewardship Mark consists of two filled circles of equal size connected by a short horizontal line. A small optical gap separates the line from each circle. The gap is not a design preference — it is a principle. See the Identity Charter: The Two Marks.

PROPERTY	VALUE
----------	-------

Circle radius	16px — matching the Steward's Mark Standard
Optical gap	4px at each end of the connecting line
Line weight	1.5pt
Stroke linecap	Round
Mark orientation	Horizontal only — the circles are always at equal height

Note: *The connecting line must never touch either circle. The gap makes visible what the Charter establishes in principle: the relationship exists between two complete people, not as part of either person.*

03 COLOUR PALETTE

LifeBook's colour palette is intentionally narrow. It should not be expanded without a documented decision that references the Identity Charter.

NAME	HEX	PRIMARY USE
Navy	#1A2E4A	Marks (primary), headings, principal text
Teal	#2A7A7A	Accent, callouts, section sub-labels
Slate	#4A5568	Body text, supporting text
Light	#F7F9FB	Section backgrounds, callout fills
White	#FFFFFF	Primary page background
Rule	#CBD5E0	Dividers, borders, table rules

04 MARK COLOUR USAGE

The marks should appear in one of four approved colour treatments. Teal and On Teal are accent uses; they should appear sparingly and deliberately.

TREATMENT	MARK COLOUR	BACKGROUND	CONTEXT
Primary	Navy (#1A2E4A)	White	Standard use in all documents
Reversed	Parchment (#FFF8E7)	Midnight (#1A2E4A)	Cover pages, dark backgrounds
Accent	Teal (#2A7A7A)	Light (#F7F9FB)	Callout environments
On Teal	White (#FFFFFF)	Teal (#2A7A7A)	Rare — use deliberately

Note: The reversed identity uses LifeBook Parchment (#FFF8E7) rather than white so that each circle continues to read as a complete, preserved life—not an empty space.

05 TYPOGRAPHY

All current LifeBook documents are set in Calibri. The table below records the established type scale.

ELEMENT	TYPEFACE	SIZE	TREATMENT
Body text	Calibri	11pt (22 half-pt)	Regular, Slate (#4A5568)
Section heading	Calibri	11pt (22 half-pt)	Bold, White on Navy — ALL CAPS
Callout emphasis	Calibri	11pt (22 half-pt)	Bold, Navy
Callout note	Calibri	10pt (20 half-pt)	Regular, Slate
Footer	Calibri	9pt (18 half-pt)	Regular, Rule (#CBD5E0)
Cover title	Calibri	32pt (64 half-pt)	Bold, White
Cover subtitle	Calibri	18pt (36 half-pt)	Regular, #D0E8E8

Note: Calibri is appropriate for current document production. The working typeface should be reviewed as the identity matures toward print and formal publication use.

06 CORRESPONDENCE APPLICATION

The marks are applied in correspondence as follows. All correspondence should use the Standard size (r = 16px) unless the context specifically calls for Accent or Title scale.

CONTEXT	MARK	TREATMENT
Opening — The Promise Made	Steward's Mark (r = 12px inline)	Mark followed by wordmark "LifeBook" in Calibri semi-bold, 21pt, Navy
Closing — The Promise Kept	Stewardship Mark	Mark only — no wordmark, no explanation

The Stewardship Mark closing requires no wordmark. The relationship, not the company, is the final message.

07 PROHIBITED USES

The following uses are prohibited without exception. Each prohibition reflects a principle in the Identity Charter.

- ▶ Outlined circles — the marks are always solid fills, never strokes.
- ▶ Circles touching the connecting line — the optical gap is mandatory.
- ▶ Gradient fills of any kind.
- ▶ Drop shadows or glows applied to either mark.
- ▶ Rotation or distortion of either mark.
- ▶ Scaling the two circles of the Stewardship Mark to different sizes.
- ▶ Introducing any mark other than the Steward's Mark and the Stewardship Mark.
- ▶ Mark colours outside the approved palette.
- ▶ Animated or motion treatments of either mark without explicit Charter review.

When in doubt, consult the Identity Charter before the Identity Standards. The Charter establishes why these Standards exist.
